

Section 17.24.805

AVF: SIGNIFICANCE DETERMINATION

The South Fork of Spring Creek was previously designated an AVF within the mine permit area. The South Fork of Spring Creek was determined to be insignificant to agriculture by the MDEQ. A full discussion of the reclamation plans designed to restore the essential hydrologic functions of the South Fork Spring Creek is presented in Appendix I. Spring Creek has received a negative AVF declaration. Hydrologic studies that support this determination are found in Appendix L-1. The hydrologic reclamation plan for Spring Creek is presented in Appendix M.
