

Section 17.24.650

POST-MINING REHABILITATION OF SEDIMENTATION PONDS,
DIVERSIONS, IMPOUNDMENTS AND TREATMENT FACILITIES

(1) Renovation of Permanent Facilities

Before abandoning the permit area, SCCC will renovate all permanent sedimentation ponds, diversions, impoundments, and treatment facilities to meet the criteria specified in the design plan for such permanent structures and impoundments.

(2) Regrading of Temporary Facilities

All temporary sedimentation ponds, diversions, impoundments and treatment facilities will be regraded to approximate original contour and reclaimed prior to abandonment of the permit area.
