In no case will the Participating Addendum, including all renewals thereof, exceed a total of five (5) years in duration.

37. Prohibition of Interpretation on a Wireless Device in a Moving Vehicle and in Noisy Areas

Contractor agrees no interpretation work by wireless communication device shall take place in a moving vehicle if the interpreter is the driver. This strict prohibition is intended to avoid driver distractions, accidents, risks to others, and lack of interpreter focus on the interpretation work itself. In addition, background noise such as traffic, barking dogs, crying babies, wind, and other people carrying on nearby conversations is a distraction to others on the phone and interpretation work should not proceed when any participant cannot hear due to the background noise and requests the interpreter to relocate to a quiet area. Subject to contract cancelation and other penalties, any interpretation conducted on a wireless device, whether texting or oral, is prohibited under this contract if conducted in a moving vehicle when the interpreter is the driver. To be clear, this prohibition shall also apply in states with laws addressing cell phone use and/or texting while driving and applies to all drivers involved with manually or orally typing; or entering multiple letters, numbers, symbols or other text in a wireless communication device; or sending or reading data in the device, for the purpose of oral or non-voice interpersonal communication, including texting, emailing, and instant messaging. Vehicles equipped with Bluetooth devices and dash mounted phones are not an exception to this prohibition. Interpreters must not be driving in a moving vehicle when conducting interpretations.

All other articles of the original Master Agreement remain the same.
