

MEMORANDUM

TO: Potential Bidders

CC: Rob Collins, Steve Garrison, Matt Daniels

FROM: Doug Martin

DATE: January 27, 2012

SUBJECT: Addenda #1 - CFR 1 Channel Contract, Milltown Restoration Action, Contract # 700068

Section III, Special Provisions, Page 2, Special Contractor Qualifications Addendum:

This addendum replaces above referenced paragraph.

“Contractor shall use equipment with survey grade Global Positioning System (GPS) machine-control capability. Contractor shall have at least one excavator and at least one bulldozer configured to operate with digital terrain models for design grading surfaces provided by Engineer or Contractor may propose an alternative means and methods that will achieve the same level of precision, accuracy, and efficiency as an excavator and a bulldozer configured to operate with GPS machine-control capability. Alternate means and methods that require additional grade staking and survey layout by Engineer, and result in additional cost to the Owner will not be accepted. ”
